Western Load Research Association

2021 Spring Conference **April 14-16, 2021**

	Wednesday, April 14		Thursday, April 15		Friday, April 16	
	Presentation	**Speaker**	**Presentation**	**Speaker**	**Presentation**	**Speaker**
10:00	welcome, day 1	Josh Mondragon	welcome, day 2	Paula Ham-Su	welcome, day 3	Josh Mondragon
10:10	safety message		Analysis of Load Reductions for ERCOT's February 2021 Winter Storm Event	Carl Raish, ERCOT	Are More Data Always Better? – Sampling Versus Census Analysis for Class Load Estimation	Curt Puckett and Kevin Cracknell, DNV
10:20	Accuracy of Evaluation Methods for Energy Efficiency Programs During a Pandemic	Adriana Ciccone & Stephanie Bieler, Demand Side Analytics				
10:30						
10:40						
10:50					Actual versus reported DR performance during system emergencies. What lessons can we learn?	Josh Bode, Demand Side Analytics
11:00	Decisioning for a Low-Carbon Future	Dr. Prasenjit Shil, Ameren, and Tom Anderson, SAS	Load Research at BC Hydro	Cathy Rupp, BC Hydro		
11:10						
11:20						
11:30					BREAK	
11:40	BREAK		BREAK		Evaluation of COVID Impacts on SDG&E Residential Consumption	Rina Tefiku- SDG&E
11:50	Use of whole customer population AMI data to design better rates	Jian Zhang, GridX	Using AMI data for modeling, forecasting, and variance analysis	Stuart McMenamim, Mark Quan, David Simons		
12:00						
12:10						
12:20					Round Table: (2) Trends in Electrification	Moderator: Josh Mondragon
12:30	Round Table: (1) Impact of CIS Transitions on Load Research	Moderator: Josh Mondragon				
12:40			EV Managed Charging: PSE's Results so far	Graham Marmion	Estimating COVID impacts using SDG&E's dynamic load profiling	Robert Langton and Paula Ham-Su, DNV
12:50						
13:00
