RIVERSIDE PUBLIC UTILITIES

Established in 1895, Riverside Public Utilities is a consumer-owned water and electric utility governed by a board of nine community volunteers that provides high quality, reliable services to over 107,000 metered electric customers and 64,000 metered water customers throughout the City of Riverside. The Utility is committed to increased use of renewable energy resources and sustainable living practices that help reduce environmental impacts within the City of Riverside and the State of California.

Fitch Ratings	AA-
Standard & Poor's	AA-

System Data:	
Transmission lines (circuit miles)	91.1
Distribution lines (circuit miles)	1,323
Number of substations	14
2012-2013 Peak day (megawatts):	592
Highest single hourly use: 08/13/2012, 5pm, 97 degrees	
Historical peak (megawatts): 08/31/2007, 4pm, 106 degrees	604

ELECTRIC USE:	**2012/13**
Number of meters as of year end	
Residential	96,207
Commercial	10,337
Industrial	894
Other	87
TOTAL	107,525
Millions of kilowatt-hours sales	
Residential	726
Commercial	419
Industrial	1,003
Other	31
Subtotal	2,179
Wholesale	14
Total	2,193

ELECTRIC FACTS:	**2012/13**
Average annual kWh per residential customer	7,547
Average price (cents/kWh)	16.27
Debt service coverage ratio(DSC)	2.73
Operating income as a percent of operating revenues	24.0%
Employees	460

Load Research and Interval Data Gathering:
Riverside Public Utilities uses MV-90 (for large accounts only), SAS and SYNERGEE engineering Software for load research.
